PROFESSIONAL SUMMARY

I am a recent graduate seeking hands-on opportunities to develop practical skills for professional growth.

PERSONAL SKILLS

- Programming Languages: PHP, JavaScript, HTML, CSS
- Database Management: MySQL, Apache
- Content Management Systems: WordPress
- Web Development: Full-stack web development (front-end & back-end)
- Team Leadership

EXPERIENCE

Website Operator, 06/2025 - 10/2025

I.O.E Thangka

- Led a web operations team by setting and achieving daily, weekly, and monthly performance goals to ensure smooth website functionality and timely task completion.
- Managed product uploads and content updates, maintaining accuracy, consistency, and SEO-friendly presentation across all web pages
- Identified and resolved website bugs and technical issues, coordinating with developers and designers to improve overall site performance and user experience.
- Trained and supported new team members, providing hands-on guidance and fostering collaboration to enhance productivity and maintain workflow efficiency.

Intern - PHP Developer, 11/2024 - 04/2025

EEE Innovation Ghar

- Collaborating on PHP-based web development projects.
- Working with MySQL for database management and building dynamic web pages.

- Developing custom WordPress themes and plugins for client projects.
- Assisting with front-end technologies including HTML, CSS, and JavaScript to enhance user interfaces.
